

# Pit Magic

Pit Magic contains a proprietary blend of bacteria and activators to break down foam, crust, and sludge. Pit Magic is the only product that shown to cause “spontaneous sludge release,” the break-up and release of bottom sludge to the surface for liquification.

“ Pit Magic helped reduce the ammonia level in our barns, allowing us to lower ventilation and save on electricity bills! We are now in the process of treating all of our finishing barns. ”

## Better Waste Management

Waste management is critical to keeping animals safe and healthy. Manure pits and lagoons are a source of harmful bacteria, dangerous gases, foul odors and disease-carrying pests. Proper maintenance of pits and lagoons is an essential part of a biosecurity program.

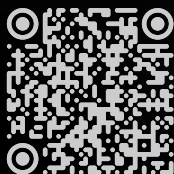

Pit Magic contains a proprietary blend of living bacteria and enzymes specifically designed to consume and liquify organic waste and reduce ammonia, foam, and sludge. The inclusion of live bacteria makes Pit Magic more effective than other waste treatment products, and results can be seen within 24 hours!

## Benefits

- ✓ Reduces sludge
- ✓ Lowers ammonia and other gasses
- ✓ Eliminates foaming
- ✓ Approved for use in organic production

## Starts Working Right Away

The bacteria in Pit Magic are activated immediately when applied to pits and lagoons. Surface bubbling and spontaneous sludge release can be seen within 24 hours. Watch the video below to see Pit Magic in action!

6 Inches ↓

Average sludge reduction in the first 30 days following treatment

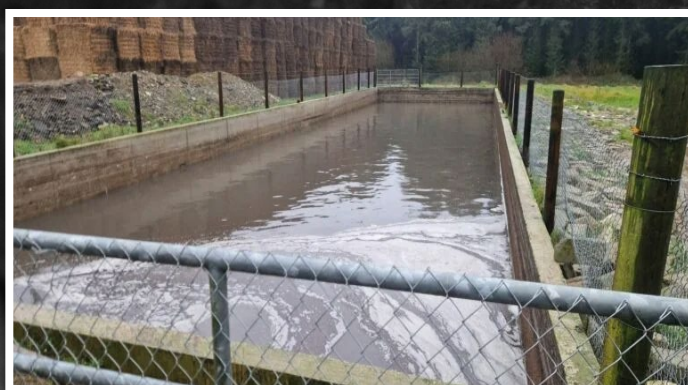

# Pit Magic

Pit Magic visibly reduces foaming and crust while accelerating the breakdown of sludge and solids. Just **60 days** after Pit Magic treatment, the thick crust covering the lagoon shown below was completely cleared, allowing for easy agitation.

Pit Magic Pre Treatment

Pit Magic 60 Days Post Treatment

Pit Magic improves the value of manure as fertilizer by reducing dry matter and increasing available nitrogen. Nutrients are spread uniformly throughout the pit, making it easier to apply consistent amounts of nitrogen and phosphorus to your fields.

8% ↑

increase in  
available nitrogen

31% ↓

decrease in  
dry matter

Pit Magic is your go-to solution for easy and cost-effective waste reduction. Contact your local sales representative today to learn more and get started with your first batch!
